

## Company Profile

Suburban Motors was established in 1985 by Clifford Henry who is still currently the proprietor. The company was created out of a sheer interest and passion for Alfa Romeos. This same passion is what was the driving force that motivated Suburban Motors to persevere, even though Alfa Romeo pulled out of the South African market. The company has relocated four times since inception to superior premises in order for the business to grow and to provide for enhanced customer satisfaction. The business has grown from repairing only older Alfa models to being a fully equipped Alfa Romeo workshop with the latest tools and equipment to deal with any Alfa and Fiat model. Suburban Motors is proudly associated with Auto Delta in England and is involved in the development and improvement of Alfa in General. The Company has also taken on GUD as a preferred supplier. We use Alfa approved spares on all vehicles which carry a full factory warranty. All work that is carried out on a vehicle is done with the customer's permission and approval. Unnecessary costs are eliminated and everything is done with efficiency. Our ability to deliver excellence in all of our operations rests on the commitment and ability that we have. We are committed to the core values of business and its method of delivery. We understand the importance of customer relations and satisfaction and therefore strive to build an impenetrable fortress around our clients. Instilled within us is a culture of control, action orientation and follow up which ensures that we perform the job to the best of our ability and grant the customer satisfaction. With us going the extra mile is standard.
